No. 7

"SYD" DUNN SPEAKS

There is a fellow named Bartender Mike
Who somehow got into this Toike Oike
And how he got there, you really should know,
It seems he was in the School Nite Show.
At shaking up fizzs, he may be a flop
But as President of Engineering Society, he'll be there on top.

He's been Treasurer on the present executive
And the books it seems are far from defective,
Society affairs have gone off with a bang
And as financial successes, they please the whole gang.
Balance Sheet of the Store shows a nice little profit
Misses Lowry's and Davy's good work have got it.
What a terrible poet is this guy Dunn
His whole darned campaign is a series of puns.
He thinks its good fun to:

"Put one by Dunn,
It must be Dunn
Dunn's for All, and All for Dunn".
Go get me a gun!

He's running it seems for the Presidency
And this job includes the S.A.C.
As treasurer, Methinks he's got something there,
Experience, ability and judgment fair.
Then warrant your vote for him come Friday
So go get your polls and march away blithely,
Your conscience clear, having done your bit
Putting One by Dunn, as President to sit.

"CHAOS"

ELECT "JEEP" DEWAR
FOR
PRESIDENT Eng. Soc.

THREE YEARS' EXPERIENCE

The Toike Oike

Devoted to the interests of the Undergraduates of the Faculty of Applied Science.

Published Every Now and Then by
The Engineering Society of the
University of Toronto.

TOIKE OIKE STAFF

Editor GLEN CAMPBELL
Assistant Editor JACK ORR
Sportoike JIM LUNDY
4th Year BILL JACKSON

WALSH FOR "VICE"

Fred Walsh is running for First Vice-President of the Engineering Society. He has had considerable experience on school executives.

In first and second years he was representative and Secretary-Treasurer of the Mechanical Club, and in third year was President of the Class. In the past year he was also chairman of the School Dinner ticket committee. The handling of School Dinner will be the most important duty of the first Vice-President this year. So VOTE for Fred Walsh.

G. P. DEWAR FOR PRESIDENT OF ENGINEERING SOCIETY

The president of the Engineering Society must be an experienced and capable Schoolman to carry out his duties properly. "Jeep" Dewar has this experience and has proven his capability by his record for the last three years. During the past three years Jeep has served the Engineering Society as:

President 4T0—1936-37

Secretary—Engineering Society—
1937-38

2nd Vice-President—Engineering
Society—1938-39

Assistant Director—School Nite—
1939

Sales School At-Home—1939

Chairman—Skits Committee—
1938-39.

This last year G. P. Dewar as 2nd Vice-President was in charge of the Engineering Society Supply Store. During that year he lowered the prices and raised the quality of the goods sold; and if returned to office in this election, he will be able to effect even greater savings through the experience he has gained.

To judge a man's record is to judge the man and on this basis we say ELECT G. P. DEWAR—PRESIDENT OF THE ENGINEERING SOCIETY.

LET'S MAKE OUR CHOICE

"SYD" DUNN

FOR

PRESIDENT Engineering Society

Put ONE by DUNN

BRUCE MCKENDRICK FOR 1st VICE-PRESIDENT OF ENG. SOCIETY

The position of First Vice-President of the Engineering Society requires a man with ability and time to devote to those predominant School functions of which he has charge. These functions are, namely, School Dinner, School Nite, and School At-Home. In this respect Bruce McKendrick proposes to maintain the high standard School Dinners, and School Nites, and at the same time put over that outstanding campus event, School At-Home with a bang. (It has to be better than Meds.)

This can only be done by electing a man who is a systematic organizer and who is willing and able to devote the time and energy to make School Functions the outstanding events of the campus.

In electing Bruce McKendrick you the assuring yourselves of "maximum of pleasure at minimum cost" and the Spotlight on events when Schoolmen get together.

DOUG. TURNER FOR 1st VICE-PRESIDENT, ENGINEERING SOCIETY

You are the fellows who will want to look forward to a successful year next year. In order to do this you must elect a responsible executive to represent you on your Engineering Society.

The Executive position, 1st Vice-President, is a main cog in your Society in that the 1st Vice-President must be the president's right hand man as well as being chairman of committees which will organize your three big social functions, namely, School Dinner, School Formal and School Nite.

Fellows, I feel that I have the enthusiasm and the ability to capably fill the position of your 1st Vice-President. So don't forget Doug Turner on election day—take the right turn for the 1st Vice-President of the Engineering Society.

Programme

Parade at 12.15 p.m. in front of School Building with pipers to Hart House.

Raise G.H. (general hell).

Return at 1.00 p.m. for voting.

VOTING 2.00 P.M.-4.00 P.M.

Parade en masse to Casino.

Raise G.H.

Return to Hart House.

FREE FOOD at 8.00 p.m. in East Common Room—and entertainment.

Returns announced at 9.00 o'clock.

SPORTOIKE

The big news of the day is the way School blasted Championships right and left in the Intercollegiate and Inter-faculty wrestling and boxing meets. Probably never before has such an army of Schoolmen blown the opposition out of the ring as did the boys this year in garnering seven out of a possible eight championships.

In wrestling, Art Scott, "Snoop" Mustard and Frank Dobson won Inter-collegiate Championships with Jack Buchan losing his by a hair. Dobson and Buchan also won Interfaculty championships. Incidentally, this boy Dobson was Intercollegiate diving champion last year. Quite a lad! The boxers led by the invincible Jock Pigott, with two knockouts, and Bill Ramore and Adam Hood cleaned up in the Intercollegiate meet; and Ramore, Swick, and George Currie won Interfaculty Championships. All in all the lads from School really did themselves proud, and also pulled in some valuable points for School in the Intramural standing.

Al Garcia showed that he is unquestionably the finest intercollegiate fencer in eastern Canada when he won the individual points championship again. Bob Wilson won an Interfaculty title.

Lorne "Pat" Patterson, one of the classiest gymnasts School has even had, did School proud when he nearly beat the great MacDonald of Meds in the Intercollegiate gym meet. Bill Lister also won his specialty, the high bar.

When the University won the Inter-collegiate swimming meet, John Girvan and Bill Staples won valuable points. The Intermediates with Dave Jennings and Bill Laari are journeying into Hamilton and expect to come back with a win.

In Waterpolo, Junior School were just nosed out by Meds. Senior School were disappointing when their classy team just failed to click.

In baseball, basketball and hockey School has seven teams all in there battling with good chances of snaffling off a championship or two.

ELECTRICAL CLUB

We feel a bit scared. When election time rolls around, it means a new executive will soon be taking over, and pushing us old men out into the soft (?) jobs all lined up for us.

With the closeness of exams in mind, the old Club has already wound up its activities for this year, with the annual dinner. The gang had a fine time as Electricals always do when they gather for social doings, and the attendance was wonderful—104! We were really sorry to miss the chance to hear Syl

Apps as had been planned, and hope he recovers soon enough to keep in that N.H.L. scoring race. However, Mr. Ignatief proved extremely interesting, and our impromptu speakers gave us some new parlour jokes to remember.

Running the Club is so much more than a one-man job, and the Executive were a grand bunch this year—may the new chairman get as fine a group.

Here's to a bigger and better Electrical Club!

W. W. RAPSEY.

ENGINEERING PHYSICS CLUB

As the end of the term approaches, now is the time that all Brain Trustees get busy or else—. But before the big explosion, there are yet a few chances to enjoy life, for instance, the annual brawl known as Skule Elections usually leaves the Little Red Skule House looking like the morning after a really bad nite.

Seriously gang, let's all get out at both School and Hart House elections and support the best men, for only in that way can we ensure a successful year.

Our last meeting on the Electron Microscope, was very interesting and a note of thanks goes to Mr. Prebus for his fine talk.

For the final get together, we will hold an informal dinner to give the graduating year something to remember.

JOHN L. ORR,
Chairman.

CIVIL CLUB

March 1st brings us pretty well to the close of the activities other than those which will be of specific value in April. However, the Civil Club will have one more meeting to round off a successful year. This will in all probability take the form of a luncheon

meeting at which your new chairman will be introduced.

It has been a pleasure to act on the Club Executive this year and we would like to whole-heartedly thank the members of the Executive and particularly the Staff for the co-operation they have given us this year, and sincerely hope that your next year's executive will receive the same help and guidance. To each and every fellow we wish all success in examinations and future work.

RUSS RULE,
Chairman.

DEBATES CLUB

The Second and Fourth are Debating, On a National Government's rating. The ire of McC. supplied the "Idee" For the Bull-roar the boys are creating. (Advertisement)

Yes, gentlemen, the second of the Segsworth Trophy Debates between the Sophomores and the Seniors is to be held early next week in Hart House. The following week will see the final struggle between the winners of the two preliminary debates for the Segsworth Trophy and ye ancient and useful, individual pewter BEER-MUGS, joy of every good Schoolman's heart.

SO, WATCH FOR THE SANDWICH BOARDS!!!!

H. DE V. PARTRIDGE,
Chairman.
